

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

This statement with the receipts were offered to Mr. Dallas who told me he could not receive them unless they were accompany'd with the muster roll from the commanding officer, which I informed him I had already demanded, but was put off, and I may truly say that I have demanded them of him every three months since. I believe Mr. Dallas wrote likewise to him on the occasion, as I wish'd him so to do, for I knew of no way to compel him to a settlement without the assistance of Mr. Dallas as I considered myself acting under him as Paymaster General to the Troops of this State on the Receipt of your first Letter I took Major John McElvey with me to him, I shewed him your Letter reminded him of his being the cause of it & insisted on his immediately making out the Muster and Bounty Rolls or I should be oblig'd to expose him after a short Pause he requested twelve Days the last I heard from him on the subject was that he had lost his Papers and could not comply. He said he paid considerable sums of money for Provisions for the Troops, which I believe to be the case, for they were ordered to rendezvous at Newtown and

no provisions made for them. for which they look'd up to him as commanding officer, and I have Reason to believe if he had not supply'd them, they would have returned to their homes as some of them did, even after receiving the bounty money, and never returned again. Between the time of my calling on Col. Hanna & hearing last from him I had the misfortune of have one of my Legs badly broken and a severe Fit of the Gout in the same foot & Leg which has crippled me in such a manner that I have little Expedition of getting on my Feet again this Winter or of ever being able to walk again as heretofore. I should not have given you the Trouble of sending a second time as I intended sitting out for Lancaster about the Middle of Septr. seeing no Way that I could possibly get the accounts to your office with any certainty. My present situation is such as precludes me from doing any Bussiness for myself without the assistance of my Friends.

If the accounts of the Western Expedition have come to your hands, I will be very thankful if you will consider mine, which stands nearly as follows—marching orders Sept. 11th had the misfortune to be thrown from my horse the first days march of the Troops by which I was exceedingly cut and bruised & unable to join the army till the 21st of October at Bedford. I drew neither Rations or Forage for myself or servant till that time and from that time only one Ration each per Day till the Troops marched from Fort Pitt homewards at Bedford drew nine which was all I had, nor no Forage from Carlisle till Discharged. From that time till this no Person by my orders or otherwise for me has ever received a Dollar except that which was put into my hands as Bounty.

Sir: The Militia Law requires that the B. Inspector shall furnish the Adjutant General with the Returns of the Militia in their Respective Counties and with their receipts of Militia Fines and their expenditures. I have it not in my Power to make out regular Returns those Returns I herewith transmitted were taken from the Returns made by the Captain under the old Militia Laws in May last.

The amount of the Fines I received by me & the expenditures being so small that I was not particular with respect to the form.

GENTLEMEN:—

I think that I ought to be allowed something for attending to the mustering, marching and paying the above militia. My trouble was not much inferior to that of an officer on the expedition.

The Brigade Inspector was sick and the whole duty devolved on me with the assistance of the marching officers. This however must depend on any discretion given you under the Law and upon the Justice of Mr. Dallas under whose orders (as paymaster) I acted. The rest of the business would have been left undone and the service left to suffer had I not stepped forward. The Accounts or Vouchers it is hoped will be satisfactory. By reference to my notes on some of the receipts you will find that five or six of the men who marched were paid after the return of the army on the certificates of their Commanding Officers. Some others who would not take the bounty when mustered fearing it would be construed into an Enlistment for an excursion into the Indian country have never received any; they complain loudly. I shall procure their names and the proper vouchers & bring them down with me in a short time and before the final adjustment of the Paymaster General's Account. When I first had the favour of your letter on this subject two of the Returns were mislaid

owing to my carrying them to & from Phila several times, but now I transmit them as I received them.

I am Gentlemen with respect

Your Obed't Servant,

JOHN A. HANNA.

If any further information is wanted the Stageman by whom you sent the last letter is a safe opportunity.

---

Alexander James Dallas Ano as Paymaster to be credited by amo. John A. Hanna's amo. of bounty paid the detachment of Dauphin County Militia which joined the army in 1794 to Suppress the Insurrection in the Western Counties.

N. B.—In the settlement of Mr. Dalla's amounts 12 July, 1800, his actual balance is reduced by bringing into view monies advanced by him to persons to Pay Bounties, among whom is Mr. Hanna \$1460.

Mr. Hanna will settle with Mr Dallas for the difference.
